**THE CARD THAT
OFFERS EXTRA
SERVICES,
COMFORT AND
SAFETY FOR
FREQUENT
BUSINESS
TRAVELLERS**

It is now possible to upgrade your First Card to First Card Executive. This enables the company to use all the advantages of the First Card payment system. Moreover, cardholders get access to extra benefits and functions, particularly developed for travellers requiring extra service, comfort and safety during business trips.

First Card Executive gives access to our Concierge and Travel Service. Using this service will save you a lot of time and effort that would otherwise shift your focus from the real purpose of your travel activity. Concierge and Travel Service is available 24 hours a day to help you with everything from small tasks to more urgent and complicated problems. Concierge and Travel Service can for example assist you with booking tables at restaurants. And booking or rebooking all kinds of tickets, procuring translation services, finding conference rooms and solving any number of difficult situations that cannot be foreseen until they suddenly happen and require urgent action.

Improved insurance coverage for extra safety when travelling

Frequent travellers often have to live with very narrow timetables and careful planning. That is why companies often spend large amounts of money on amendable tickets and extra travel insurance.

With First Card Executive you can travel at low cost, reducing costs but still enjoying comfort and safety.

First Card Executive insurance offers higher compensations than First Cards ordinary insurance cover

– problems simply become easier to overcome if you can check into a closer and – therefore perhaps slightly more expensive hotel if you find yourself stranded somewhere or if you have more alternatives when having to book new tickets. In addition, the insurance covers missed connecting flight, luggage delay, cancellation etc.

The First Card Executive insurance may also lower overall insurance costs and thus save the company money.

**Priority Pass:
Free access to VIP lounges**

Through the cooperation between First Card Executive and Priority Pass you get free access to more than 850 VIP lounges no matter what airline or ticket you use. You have access to lounges in airports worldwide from danish domestic terminals to the main international traffic hubs. Of course this means further cost savings without you having to sacrifice the comfort and peace and quiet that otherwise only expensive flight tickets entitle you to. Holders of First Card Executive just need to show their Priority Passes to enjoy a quiet environment to talk, use their laptops or just relax.

**All benefits available through
First Card's payment system**

Just like our ordinary cards, First Card Executive is of course part of First Card's payment system – designed to be compatible with your company's own invoicing system. All purchases can be managed from the beginning to be invoiced to the right cost centre or project number.

Other benefits are also the same:

- The card is connected to First Card's travel account where the company invoices all purchases of tickets, hotel accommodation and transfers.
- The MasterCard function allows you to use the card in 38 million sales outlets worldwide.

With FIRST CARD your company can reduce travel expenses. This is possible thanks to our easily understandable statistics, integrated travel account and payment card and the tailor-made invoicing models that we develop together with our customers.

With FIRST CARD the company gets one combined invoice for travel activity, entertainment, hotel accommodation, rental cars, petrol and any other expenses that business travellers may have. Moreover, FIRST CARD is a MasterCard that can be used in over 30 million sales outlets worldwide.
