

First Card

First choice of corporate cards

First Card is a complete system for handling the travel and entertainment expenditures and small purchases with travel account and corporate card. With First Card both companies and in public sector customers get a single sender of invoices for all travel related purchases, such as business trips, representation, petrol, car rentals hotels etc., instead of receiving separate invoices from each provider. The number of invoices is reduced which means much faster handling of account-coding and falling administrative expenses.

Different cards for different needs

Organisation has a possibility to choose out of different corporate card options. One company can have corporate liability cards, private liability cards or cards with joint liability together with cardholder and the company. Liability can be determined per card. Regardless of liability First Card is always a MasterCard which is accepted globally in over 230 countries in more than 30 million points of sales. You can also withdraw cash in MasterCard labelled ATM's, money exchange offices and banks. There are also additional and spouse cards for private usage available.

First Card Travel Account

First Card Travel account is an invoicing system specially developed to offer travel agencies and their corporate cus-

tomers support in respect of efficient travel administration. First Card Travel Account is an account to which corporate customers debit all their travel agency expenses. Invoicing over the Travel Account offers several alternative invoicing models to reduce the number of invoices in administration. First Card has partnership with all the major business travel agencies in Nordic countries.

First Card Reporting

Using First Card Travel Account and cards the company has a possibility to get statistics via First Card management information system called Statistic Online. These statistics provides full picture of T&E and small purchases on one place regardless of the service provides.

Flexible invoicing

To adjust the invoicing into organisation and its routines First Card offers several different invoice models and periods. The invoice can be on company level, cost centre level or on card level. There is also possibility to use electronic invoicing, which reduces the administrative costs even more by more effective working methods.

First Card Travel Expense connection

First Card transactions can be transferred to the company's travel expense system, which makes it easier and quicker for the traveller to do the travel expense reclaim. First Card has partnership with all the major travel expense system providers in Nordic countries.

First Card support in setting up the service

First Card experts are ready to help also in start phase. Together made project plan and different experienced options smoothens the way in the beginning.

First Card Travel insurance

First Card Complementary travel insurance is valid during the trips that are paid with First Card. This insurance provides extra safety on trips, not only for the cardholder but also for the whole family, if their trip is also paid with First Card. First Card complementary insurance includes e.g. indemnity for accidental death or permanent handicap, cancellation of trip, indemnity for delay of luggage arriving or late departure, liability insurance to body injury or material damage to a third party.

Benefits and discounts

As a First Card cardholder you get car rental benefits, discounts on hotel prices, gas, etc. See the current benefits at the address www.firstcard.fi.
